Dear business partners,

we would like to inform you that we will be introducing a new storage system at our company.
This is an automatic pallet storage system in which storage will be carried out exclusively on Euro pallets (whole and ½ pallets).

We would therefore like to inform you that all goods that are not sent as a parcel must **immediately** be delivered to us on Euro pallets with matching wooden frames.
For this purpose, we will provide you with replacement pallets.
We would like to ask you to always achieve the smallest possible packaging size.

To ensure a smooth process, we would like to ask you to forward this information to the relevant departments within your company.
Failure to do so will result in significant additional work for us due to relocating the pallets.
In case of non-compliance with our prescribed delivery condition we therefore reserve the right to charge you a fee of 200, - Euro for the additional costs incurred on our side.

Please note:
The measurements are included the dimensions of the EPAL.
The maximum dimension of the pre-packed freight including EPAL, must not exceed 2100mm including EPAL.

- **Weight** (per storage space / per EPAL large or per ½ pallet):
  - o max. 1000kg
  - o max. 500kg per ½ pallet
- **Delivery**:
  - o On Euro pallets (no disposable pallets! No INKA pallets!)
  - o No objects / packaging may protrude the Euro pallet

Please find attached the exact details.

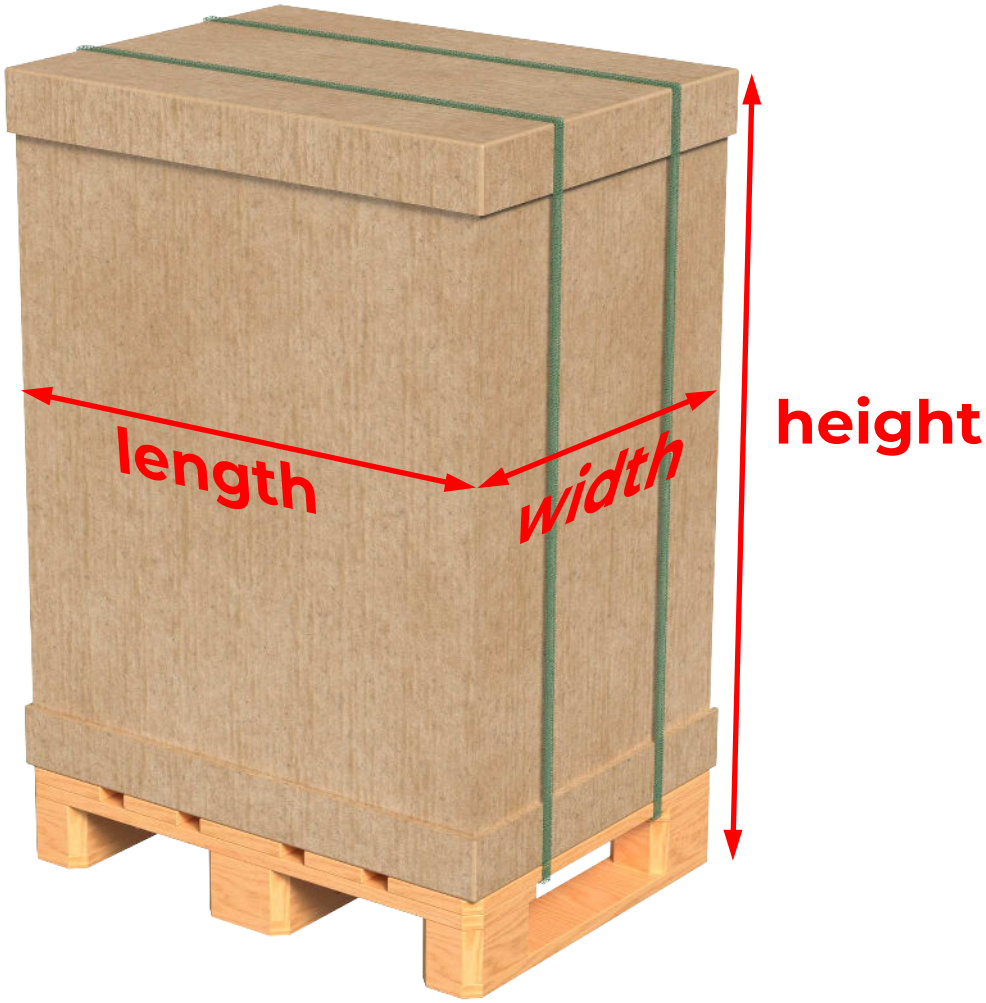
Thank you for your efforts and we look forward to continuing our good co-operation.

Kind regards,

bock machining GmbH

PACKAGING INSTRUCTION BOCK MACHINING GMBH

EURO PALLET SMALL (60x80cm)



INFORMATION FOR CARGO

properties	value	unit
length max.	800 (+50 all-round)	mm
width max.	600 (+50 all-round)	mm
